DETAILED ACTION

Allowable Subject Matter

Claims 1-20 are allowed.

Reasons For Allowance

The following is a statement of reasons for the indication of allowable subject matter: The prior art taken alone or in combination neither discloses nor makes obvious the instant process of claims as a whole. Specifically, the prior art of record, Hsu et al. (U.S. Pub. 2002/0191349) discloses a method for forming an electromagnetic transducer comprising (paragraphs [0057]-[0065] and FIG. 10A) forming a first soft magnetic pole layer (FIG. 10A, 82/92) having a substantially flat surface; forming an inorganic nonferromagnetic layer (FIG. 10A, 210) (alumina Al_2O_3) and a hardbaked photoresist mask (FIG. 10A, 208) over the first pole layer; and etching the hardbaked photoresist mask and the inorganic nonferromagnetic layer to create an inorganic nonferromagnetic apex region (paragraph [0071] and FIG. 10A) but fails to teach or suggest the Applicant's steps of wherein forming the inorganic nonferromagnetic apex includes forming a photoresist mask over the first pole layer, the mask terminating adjacent to a desired location of the second side, and removing the mask to define the inorganic nonferromagnetic apex as recited in the currently amended independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
